I can understand ethical use of information, technology and media. VI.A.2 ENGAGE:THINK

DIGITAL CITIZENSHIP

Digital citizens have the responsibility of using technology appropriately. Staying safe online is one of the most important parts of being a digital citizen. You should only visit appropriate websites that promote learning and are for educational purposes when you are at school. Also, be sure to never post personal information anywhere when you are online. Always follow Copyright Laws and cite the sources you use for your research projects. Digital citizens also need to have a strong voice to stand up and say "No!" to cyberbullying. If you notice that someone is being unkind or harmful while you are online, be sure to tell an adult! Being able to use technology to learn at school is a privilege and comes with important responsibilities.

Are you going to be a responsible digital citizen this year?

1. What does it mean if something is digital?

~~~~~~

~~~~~~

2. Is it okay if you share your phone number on the internet? Why/Why not?

_____
