

## NTI Day 8-Music

Learning Target: I can understand the relationship of music and daily life.

# Family Music Interview

Music is a fundamental part of human expression. What is the role of music in our daily lives? How has that changed over the generations?

Choose a parent, grandparent, or other adult to interview.

- Ask them to sing you a song they remember from their childhood.
- Ask them if they had music in school and describe what was it like.
- Sing a song to them you remember learning from school.
- Compare your experiences with their experiences.

This can be completed on paper or on a Google Form.
